## About Rhino Innovation

Rhino Innovation Ltd are manufacturers of cutting mats, workbench protection mats, clean room products and hygiene dispensers. Rhino has been established since 2005 and grown into a leading supplier of workplace innovation products.

We're passionate about providing unique solutions, be it one off prototypes or national roll-out programs in many sectors including automotive, aerospace and marine, healthcare, manufacturing and warehousing, and education.

## Our Mission

At the core of our mission is our belief that we can add value by providing innovative, time saving and more effective solutions, coupled with our desire to bring them to market in a sustainable way.

Historically many of our core products are based around PVC, which has meant we've taken time to innovate and promote new materials and schemes to build a sustainable greener future.
