**SUSTAINABLE
INNOVATION**

About Rhino Innovation

Rhino Innovation Ltd are wholesalers and retailers of cutting mats and workbench protection mats, workshop cutting tools and metal workbenches. Rhino as a cutting mat brand has been established since 2005 and grown into a leading supplier of workplace innovation products.

We're passionate about providing unique cutting mats and bespoke solutions, be it one off prototypes or national roll-out programs in many sectors including cleanrooms for automotive, aerospace and marine, signage and printing, manufacturing and warehousing, craft and textiles, and schools and education.

Our Mission

At the core of our mission is our belief that we can add value by providing innovative, time saving and more effective solutions, coupled with our desire to bring them to market in a sustainable way.

Historically many of our core products are based around PVC, which has meant we've taken time to innovate and promote new materials and schemes to build a sustainable greener future.
